CUSTOM COVER ARTWORK SPECIFICATIONS

Artwork Requirements

- Artwork must be submitted in one of the following formats: .indd or .idml.
- Text must be outlined or accompanying font file is required to be sent with the artwork.
- Colors must be named the Pantone color and put into CMYK color mode for printing.
- Images must be embedded into the file and setup at 300 DPI and in CMYK color mode.
- Any graphic element that extends off the page must go to or past the 0.1875" bleed area.
- For large black areas, it is recommended to use print black (C=30, M=20, Y=20, K=100).
- Name your artwork as '*CompanyName*_CoverV30'

Layout Specifications

Cover Artwork is defined as Front Outside Cover, Spine, and Back Outside Cover. Front and Back cover dimensions are 8.375 x 10.5" and the Spine is .5 x 10". Keep important copy and images within the live area, which is a minimum of 1/4" in from the trim size and spine. This provides a safety margin from the Trim Area on all four sides, including the spine. Any live copy or images exceeding this safety margin may be trimmed off during binding. Bleed Area is 0.1875" past the Trim Area, any graphic element that extends off the page must go to or past this.

Download the **Catalog Cover Template** for guidance on the size and copy area. The front, spine, and back are all separate pages in the .indd/.imdl template provided. Template is in the following order of front, spine, and back cover.

Bleed
0.1875

Live Area
7.875 x 10

Trim Area
8.575 x 10.5
